And thank you Larry.

Attention from DC on these responses is always welcome and the idea that there are some best practices that need to be shared with other regions expands the significance of our 'normal' response action.

Smooth relationships with CID, inserts to agencies like ATF, as well as a professional environmental and legal staff make a real ositive difference. We all appreciate your comments.

Mark -

I wanted to thank you for your great work in West. You are truly the best of EPA, and I am very proud to be associated with pros like you.

Also, thank you for your incredible hospitality today. I remember what is was like having the "brass" come out to the field - and so I really appreciate your patience and understanding.

Please let me know if there is anything I can do to make your task easier.

All the best -

Larry
